PREFACE

Cultivating literacy at a young age is critical to every child's educational development. Each student's success in school depends on their ability to read and write effectively because both form the basis of learning in every subject. Embracing books is what helps even the weakest of students along and is what encourages all students to broaden their depth of knowledge. As such, *Enjoy Your Reading* is a collection of creative passages that highlight our students' progress with literacy. Each passage offers a glimpse of what our students have been learning over the course of this past school year and illustrates how far they have come in only a short matter of time.

Today is Christmas Day. My father and mother bring me and my brother to Hong Kong Ocean Park. There are many sea animals.

First, we visit the Shark Aquarium. We take photos with the sharks. Then, we go to the Ocean Theatre to watch the dolphin show. After that, we go to the Children's Kingdom. We play on slides and carnival games. At last, we ride on the cable car. I am so tired but happy today.

A whimsical, painterly illustration in a muted color palette. In the center, a small child with curly hair, wearing a dark shirt and shorts, stands holding a large, dark mushroom-shaped umbrella. The child is positioned in a garden with various plants, including tall, leafy stalks and small flowers. In the background, there are stylized, fluffy clouds and a small, dark, boat-like shape in the upper left corner. The overall style is soft and dreamlike, with visible brushstrokes and a gentle, atmospheric lighting.

Finally, I found the letters in the rubbish bin. I felt sad because Santa Claus could not get the letter. So, I do not write a letter to Santa Claus now.

An Accident

5A Chow Hlu Tung Benita

The weekend was finally here. My family and I decided to go swimming together. We went to the swimming complex which was in Tseung Kwan O. We all thought that it was a great way for us to relax after a long week.

After entering the swimming complex, I immediately went to the water park with excitement. To my disappointment, all the slides were closed.

Then, my brother and I started to swim in the swimming pool. We were swimming happily when we heard a loud 'beep' sound. I realized that a man was waving his hand weakly. In a blink of an eye, two lifeguards jumped into the pool. Someone threw a lifebuoy towards the man who was saved by the lifeguards shortly. I was relieved that he was safe.

I have a pet chameleon. Its name is Vargas. I got Vargas as a birthday present from my parents. I always feed it with live insects, so it won't be hungry. It could change its colour within a second to camouflage.

Sometimes I take it out of its cage to play with it. Once I took it out for fresh air, it blended into a poster of the legendary knight Vargas which was how it got its name.

Since I am Vargas's only friend, I must care for it and love it forever.

Swimming is my favourite sport. I have started swimming since I was five. My mother likes swimming also because she does not have to spend much money on it but it is fun.

I cried very drearily in the washroom. My mother gave me a hug and comforted me a lot. I pulled myself together. Luckily I got a gold medal in the 100m Girls Butterfly Stroke event.

Flipping The Pineapple Upside Down

5A Mak Crystal

My father likes eating pineapples as they are sweet, juicy and fresh. That's why there is always a pineapple on our table.

When the pineapple is ripe, my father will trim off the top, bottom and the side. And then, he will find out the pattern of the eyes on the surface and remove them. Next, he will cut it from top, slice them into pieces and share the fruit with us. He used to trim out the core but he learnt that eating the core of the pineapple is healthier, so he keeps it now.

My Piano Competition

5B Chu Wal Yan

I remember my first time joining a piano competition, I was so scared. When I got into the hall, my legs were shaking and my hands were stiff.

I was not the first one to play the piano, so I watched and listened to other children's performance. They played well. It was my turn to go onto the stage. I was nervous. After bowing, I sat down slowly and started to play the piano.

Finally, I got eighty-one marks. I was so happy. But I think I still need to improve my skill. I trust that I will play better next time!

My Favourite Food

5B Lau Lok Yiu

My favourite food is chocolates. I think chocolates is the most popular snack for children. Whenever I feel sad, I like to eat some chocolates to cheer me up.

Actually my mother does not allow me to eat too much chocolates because it is a kind of junk food which is not good for health. Fortunately, my father also likes chocolates. He always buys different kinds of chocolates for me. I especially like milk chocolates. My father's favourite is dark chocolates.

I think the most important is that I must brush my teeth after having chocolates.

Playing Tennis

5B Man Sze Wing

Last Sunday, I played tennis with Dad and Mum at five o'clock in the afternoon.

When we arrived at the tennis court, I learnt how to play tennis from my parents. After that, my dad taught me how to hold the tennis racket and practised how to hit the ball. I was very excited but loved it very much.

I am very interested in it now because playing tennis can make me healthier. I can grow taller and taller. Moreover, it can make me free and happy too.

My Dream Job

5B Teol Yan Yin

I want to be a cook when I grow up because I love eating. I don't know how to cook but I think 'practice makes perfect'.

If the food that I cooked is tasty, people will be happy. I will be happy too. I know it is difficult to become a good cook. Therefore I have to learn more about cooking.

I will attend some cooking courses when I have time. I also read many cookery books. It is still a long way to achieve my goal; I will work hard on it.

Ice-skating Competition

5B Wong Wan Kel

Annual ice-skating competition was held in Tai Koo City Plaza today. I was one of the participants. My mum and I arrived there at half past one.

I spent more than a year to prepare for this competition. I wore a pink dress, which was bought by my mother. It was very pretty.

It was my turn at three o'clock. I was nervous when I saw so many audience. At the same time, I also saw my coach and Mum cheering for me. I was relaxed suddenly and started dancing on the ice rink.

Eventually, I came fourth. We enjoyed a feast in the evening.

A whimsical, painterly illustration in a muted color palette. In the center, a small child with curly hair, wearing a dark shirt and shorts, stands holding a large, dark flower over their head like an umbrella. The child is positioned in a garden with various plants, including tulips and lilies, some of which have fallen petals around them. The background is a soft, hazy sky with large, billowing clouds, a small white paper airplane flying to the right, and several small stars scattered across the upper half. The overall style is dreamy and artistic, with visible brushstrokes and a soft focus.

PRIMARY SIX

My Favourite Cartoon Character *5C Wong Yuet Ting*

My favourite cartoon character is Winkipinki. She is a cat. She wears a checkered red dress with the same pattern ribbon on her head.

Mum likes Winkipinki, too. The character originated from Japan thirty years ago when my mum was a teenager. She has got a Winkipinki cup which she uses at festivals because she cherishes it so much.

I want to have Winkipinki stationery, so I can use it daily.

My Pet

5C Siu Wing Tung

Mum gave me a dog on my last birthday. Her name is Bobo. She has long curly hair. Her body is black and brown.

Bobo is now five years old. I go out with Bobo daily. She is very curious and never stops to explore everything with her nose. Besides, Bobo is a good guard because she will bark loudly if there is a stranger.

I am glad to have such a lovely and obedient pet. Bobo is actually a member of my family.

A Loyal Friend

5C Tseul Hlu Nam

Do you like dogs? I feel miserable when I read the news about dogs are poisoned. It is sad to see stray dogs in the streets and rural areas.

I have a poodle dog, Fiona. She can do many funny gestures. When I am down, she stays with me quietly. She seems to understand me.

Last week, I saw a big and fierce dog. I was so afraid. However, Fiona was very brave. She barked at it loudly. Later, the dog's master found the fierce dog.

I think a helpful dog is like a loyal friend. Do you agree?

The Lazy Cat

5C Tam Tsz Ching

Do you know Garfield? He is a lazy but funny cat. He was born in a kitchen on 19th June, 1978. His favourite hobby is sleeping and his best friend is a mirror. He likes eating pizza very much. But he hates fruit cake. He always says, 'Money is not everything. There's MasterCard and Visa.'

I really want to be as carefree and lazy as Garfield, but it is impossible. I must study hard as my parents would punish me if I sleep all day.

My Pudding

5C Chan Sze Yue

When I was small, I wanted to keep puppies as my pet because I think they are cute. My dream came true on my five-year-old birthday when Dad gave me a puppy, Pudding.

Dad bought Pudding from the Society for the Prevention of Cruelty to Animals during our visit. Pudding was a lost dog and SPCA's staff saved it. When I approached Pudding's cage, it looked at me and seemed that it wanted to play with me. Therefore, I asked Dad to adopt it. To my surprise, he agreed and since then, Pudding has lived with us.

Doraemon

5C Mak Tsz Ching

My favourite cartoon character is Doraemon. It is a robotic cat from the twenty-second century. It comes to the twenty-first century to help the foolish Nobita.

Doraemon always helps Nobita to solve all his problems, for example, doing homework and dating Shizuka.

Doraemon gives Nobita a lot of interesting magic weapons which Nobita uses in a wrong way.

I wish I could have a robotic cat like Doraemon in my life!

Refreshing Snacks

5C Lei Sum Yin

My favourite snack is peppermint. When I am sleepy, I often have it to freshen me up.

I also like fish balls with curry. They are spicy and chewy. I sometimes buy them after school when I am hungry. But fish balls become very expensive nowadays. Four fish balls cost five dollars last year. Now I need to pay ten dollars for only four fish balls! They become so expensive that I can no longer afford!

Homemade Snacks

5C Tai Tsz Ching

I like a lot of snacks but my favourite is chocolate bars because they are so sweet and crunchy. Moreover, they are cheaper than most chocolates.

However, if we overeat chocolate bars, we may get diabetes. Therefore, we must do a lot of exercise after enjoying them!

I like healthy snacks like sandwich. I always make it by myself. Cheese and pineapples are healthy choices for filling. Pineapples are yummy but may taste sour. Therefore, you may have sliced apples, bananas or your favourite fruit as replacement. I often have this homemade sandwich during holidays because I have time to make it.

My Summer Holidays

5D Fong Sum Yin Teresa

My parents and I went to Japan last summer holidays. My father planned this trip. It was wonderful .

I am impressed by the theme park we went. The most famous Mountain Coaster is in Japan. The coaster passed through a building and it was very exciting. Moreover, we went to a shopping mall and bought a lot of souvenirs.

I was very happy. I want to go to Japan again in the coming Christmas holiday.

My Hobby

5D Yeung Ming Wal

My hobby is playing the piano because I can play so many songs with it. I started to play the piano when I was four. I practise the piano every day.

I have my piano lesson every Friday. I have to practise hard before the lesson. I have played the piano for five years. I like my piano teacher because she is so nice and professional. I like playing the piano so much!

My Favourite Festival

5D To Yuet Tung

My favourite festival is Chinese New Year. It is in winter. It is the most important festival for Chinese. We usually eat traditional Chinese food like rice cake during Chinese New Year.

Children receive red pockets from their parents and relatives. I am always happy during Chinese New Year because I can meet so many relatives and play happily with them.

My Neighbourhood

5D Siu Hei Yi

I live in Diamond Hill with my parents. There are a lot of facilities in my neighbourhood. There is a shopping mall near my home. There is a bookstore. I like to go there and read many interesting books. There are some sportswear shops. It is very convenient for Dad to buy trainers and tracksuits.

My favourite place in my neighbourhood is a Singaporean restaurant. I love to eat the omelets the most. There is a playing zone and a gift shop inside the restaurant. I always buy something after the meal.

I love to live in Diamond Hill because it is close to my school, so I do not need to wake up early every morning.

My Favourite Person

5D Ng Wing Lam

My favourite person in my family is my brother, Leo. He is twenty-one years old. He is eleven years older than me! His birthday is on the twelfth of September. He is studying in the Chinese University of Hong Kong.

He is friendly. He always helps me with my homework. However, he sometimes plays tricks on me but I still love my brother so much.

My Travelling Experience

5D Tsui Sum Yin

My family and I went to Tokyo during the summer holidays. The most interesting place I have visited is the Moomin Park. Moomins are a family of white, hippo-like creatures having big eyes and small pointed ears that live in the Moomin Valley. They are popular characters in books, TV shows and movies which are mostly about their adventures in the forest.

Moomin Park is very big. Besides, children can enter without admission fee. It has plenty of space for them to run around. There are some collections of adorable buildings, bridges and tree houses. We took a lot of pictures there!

My Teacher

5D Wong Tin Wan

I like my teachers because they are kind and nice. They care about every student. Their lessons are enjoyable.

My Chinese teacher is Miss Kei. She is strict but very nice. She often tells jokes during class. I enjoy her lesson very much.

My English teacher is Miss Lee. She is kind and helpful. She always helps students to solve their problems.

My Maths teacher is Miss Cheung. She is the kindest teacher in our school. Every student wants to stay with her during recess.

I am glad to have so many good teachers!

My Dream

5D Yip Sum Chee

I am in the 'Happy Library'. I find a book about food. When I open it, suddenly I am in the Food Land. There are a lot of areas. In the fruit area, there are so many fresh fruits. The area I would like to visit is the sweet area. There are candies, lollipops and chocolate bars everywhere. There is a kind old woman baking some cakes for children too. Suddenly, a monster shouts, 'Wake up! Otherwise you will be late for school!' I open my eyes and realize that it is just a dream.

My Pet

5D Cheung Vicki

I have a little kitten, Kelly. She has white and soft fur, so I like to pet her very much. Kelly has big and black eyes which are like two beautiful pearls. She has a long tail too, but she will be mad when people touch her tail.

Kelly loves to eat fish. I always give her some fish when she behaves well. Everyone in my family loves Kelly so much.

My Summer Holidays

5D Pun Tsz Ching

I went to Thailand with my parents during summer holidays. We went to the Ramarya Water Park which is full of many colourful slides. Some are long while others are short. There were big waves to play in. When we were hungry, we bought famous Thai mango rice and chicken wings to eat.

The next day, we went to the upside-down house and it was great fun. We almost got lost in the maze.

This trip was full of fun. I want to visit Thailand again!

My Favourite Cartoon Character

6A Lam Sum Yi

My favourite cartoon character is Gudetama. It is a Japanese design. I like it because of its lazy and feeble expression. It can be a poached egg or scrambled egg in various menus and recipes.

Gudetama has a mouth but no teeth, so it may look disgusting to you. But Gudetama always appears on cups, pencils and backpacks. There is even a theme restaurant in Hong Kong.

I love Gudetama a lot, so most of my belongings are mostly with it. I always get Gudetama gifts from my parents and friends. On my last birthday, I received a quilt with Gudetama patterns. It is not only adorable but also warm and comfortable. I hope to do shopping at Gudetama shop in Japan very soon.

My Favourite Cartoon Character

6A Ngan Po Chi

Do you know Tom? He is the cat in the cartoon series, Tom and Jerry. It is normal that most people hate Tom because he is a bad character, but I think he is good.

Whenever Tom could kill Jerry, he didn't do so but let Jerry go instead. He is really kind to be the best character I have seen.

There is a movie about Tom and Jerry going to the future. I like it very much. Although Jerry is smart and brave, my favourite character is still Tom.

My Favourite Cartoon Character

GA Choi Ka Yu

Stitch has been my favourite cartoon character for a long time. He is an alien from another planet. I think he looks like a rabbit with long ears and big blue eyes. There is a blue mark on his back too. He has six arms but normally we only see two of them.

I like Stitch because he looks really cute. He enjoys doing housework and baking cakes. Stitch likes telling jokes, so he is funny. That's why I always laugh loudly when watching his cartoon. Stitch often gets into troubles because of his naughtiness. Yet he is lovely to me as we are alike.

Goodbye My Lovely Pet

GA Mok Hiu Tung

I once kept a dog, Siu Mai. I love it very much but it died last Boxing Day.

When I was one year old, my mum bought me a dog and named it Siu Mai. It barked a lot at first, so I thought it was too noisy. Yet as I grew up, I liked Siu Mai more because it always stayed with me. Siu Mai became my very loyal companion.

I will never forget Siu Mai. I am lucky to be its mistress but really miserable to lose this adorable pet!

My Favourite Sport

6A Chan Yuek Yu

Badminton is my favourite ball game, although I do not play it well. I first tried playing badminton in primary four during a PE lesson. But I did not enjoy it at that time.

I developed my interest in badminton last summer vacation when my mum ordered me to do more sports. Although she realized I was not a good badminton player, she asked me to join the badminton course every Thursday. The coach taught me patiently, so I built up my confidence and became more skillful at playing badminton, which turns out to be my favourite sport.

Sweet Chocolates

6A Lam Ka Fu

There are many kinds of snacks in different countries, for example, potato chips, candies, cookies and pudding... My favourite is chocolates among all.

I like mint chocolates the most because mint is so refreshing that it keeps me alert. I prefer chocolates made in Belgium because of their dainty package.

I love chocolates because of the following three reasons. Whenever I feel tired during revision, a bite of mint chocolates keeps me focus on studying again. Secondly, chocolates can make everyone feel good. Lastly, chocolates always remind me of my childhood experience: I was crying sadly, and suddenly, my best friend handed me a bar of chocolates. It tasted extremely sweet as it was my first piece of chocolates. Moreover, it represented my best friend's care and concern for me.

My Melody

GA Tsang Nga Yuen

I like the cartoon character, My Melody, the most. This pink female rabbit was born in 1976. I think My Melody looks pretty and cheerful because she always wears a smile on her face. One of her best friends is Piano, a lovely sheep.

My Melody is forty-two years old. However, she is still very cute. What would I look like if I am as old as My Melody? I hope I could be as young and attractive as her.

Energy-boosting Snack

GA Ho Juliette Cheuk Man

Chocolates, no matter white chocolates, dark chocolates or plain chocolates, are the most delicious to me. I am full of energy after eating my favourite snack.

Last summer vacation, my family travelled to Belgium. I was so excited and overjoyed because Belgium is famous for chocolates. We had so many different kinds of flavours to choose and try!

Chocolates are made from cocoa beans. There are so many chocolates lovers in the world that many cocoa beans are consumed yearly. We better cut down on chocolates not simply for better health, but also for the growth of cocoa beans.

Playing Football

6A Yu Hoi Ching Halle

Playing football is my favourite sport because I get so excited when having a football match with my friends in the playground!

During last summer holidays, I usually played football with my brother at four o'clock in the afternoon. My brother is an excellent football player and I learnt a lot from him. Dad is also a football fan, so I become another one normally. We watched the FIFA World Cup and cheered for our best teams excitedly. Germany is my favourite team though they were not the champion.

It is a pity that we do not practise football at PE lessons, otherwise I believe I could be a football star at school!

My Favourite Sport

6A Cheung Sum Yuet

I usually play badminton twice a week with my friends or my family at the sports centre. I enjoy playing badminton because it is a team sport. I need to cooperate with my partners. As a result, a close relationship is developed gradually. I understand team spirit is very important as well as we have to communicate and trust our teammates.

Moreover, I become fitter and healthier after playing badminton regularly. Besides, I make more friends from my favourite sport.

Going To The Dentist

GB Poon Wai Kel

To your surprise, I love visiting the dentist because all the dentists I met in the past were very nice. They praised me even my teeth were not in good condition. They also encouraged me to clean my teeth twice daily.

When I was in primary one, I had a toothache. Mum took me to visit Dr Wong, a dentist. Dr Wong recommended me to remove the decayed tooth. He then asked me to close my eyes and start counting from one to ten. When I was counting, I fell asleep. Before long, he woke me up and told me that the tooth was removed. He asked me, 'How do you feel?' I replied, 'Wow, it seems like magic! I am not in pain at all!' He finally gave me a candy before I left and said I was a good girl.

Therefore, I love visiting the dentist from that day onwards.

I'll Never Eat Another

GB Sung Tsz Yan

I hate eating quite a lot of food, for example, cheese, seafood, tomatoes and beef. However, the food that I hate most is mushrooms.

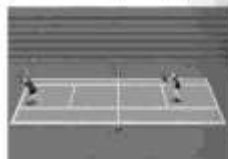

I think mushrooms are not suitable for me because of their plain taste. They are not yummy. Also, a mushroom looks like a small house in shabby colour. Although many people tell me that mushrooms are good for health and we should eat more, I hate its appearance and smell. Therefore, I will never eat mushrooms anymore.

My School Really Needs.....

6B Tang Wing Sze

I have been studying in this school since primary one. It is clean, quiet and well-equipped. Therefore, I like it very much. However, an indoor badminton court is the only thing lacking in this school. It is a pity that we cannot play badminton outdoors if the weather occasionally turns bad.

Although I will graduate from this school soon, I still hope an indoor badminton court can be built at the school hall. In this way, the court can be used for holding competitions during PE lessons. Moreover, students can also play badminton even the weather is bad. Therefore, it is a must to build an indoor badminton court at school.

My School Really Needs.....

6B Chan Kai Ching

My school really needs to hold more outdoor activities, like camping or swimming because I want to play with my classmates a lot! If I can go out with my classmates, I do not have to stay at home. I really want to go camping with them. I think it will be fun!

Besides, I think my school really needs to spend more money on purchasing books. I do not mean textbooks, but the books in the school library. I can seldom borrow my favourite books from the library because I am too late. Therefore, I hope more books for pleasure reading will be available on the shelves of our school library soon.

My School Really Needs.....

GB Cheung Hol Yau

My school really needs to buy more desktop computers because the speed of our old ones is not fast enough. It usually takes a long time to run the videos and programmes during lessons. Therefore, there is a need in changing the desktop computers.

Besides, my school really needs to buy more iPads because most of our school bags are as heavy as stones. If we practise e-learning, we do not have to carry overweight schoolbags. In this way, I can spare some space to bring my lunch box to school. That sounds great!

A Visit To The Dentist

GB Wong Hol Wai

Last Monday, I visited the dentist with my mum. The dentist is a lady who is kind with a big smile. First, she checked my teeth and told my mum my teeth were very clean and fine. Then she started to clean my teeth and told me how to use dental floss. Although using dental floss is rather difficult, I will keep using it daily because it is so important to keep my teeth healthy.

My School Really Needs.....

GB Kwan Po Ting

Actually, there are many facilities in our school. Yet I think it would be cool if we could have a swimming pool as well. Therefore, we can learn swimming during PE lessons. Moreover, the best swimmers can join inter-school swimming galas.

Besides, my school really needs to build a flower garden. If there is one, we can plant flowers, fruits and vegetables. Gardening is a healthy and fun activity for children. It cultivates children's interest in planting and their responsibility. Children develop new skills and learn more about science and nature from growing their own food.

Therefore, I hope a swimming pool and a flower garden can be built in my school.

Boxing Day

GB Li Wing Tsun

Boxing Day is on the twenty-sixth of December, the day after Christmas. It is a festival people unwrap Christmas presents. I love Boxing Day because I love unwrapping gifts. Millions of people from different countries go shopping on Boxing Day. Like in Britain, retail shops offer great discounts which attract huge crowds of bargain hunters. On the contrary, some people dress up in fancy costumes jumping into the icy North Sea to raise money for the charity. So Boxing Day is wonderful and meaningful indeed.

Boxing Day

I went to Happy Hotel to have a buffet dinner with my family on Boxing Day. I was very excited.

First, I had corn soup while Mum and Dad had lobster bisque. Then, I had spaghetti with smoked salmon. Dad enjoyed baked oysters with cheese and ribs with French fries. Mum loved roasted rack of lamb with mustard. We loved desserts and drinks. Tiramisu cake, a traditional Italian dessert, was my favourite. While Mum tried a banana split, Dad tried an apple pie. Finally, we drank hot chocolate.

When we left the hotel, we felt really full and enjoyable!

6B Lam Ka Ying

Life Is.....

It is natural that we may be bored, unhappy or even helpless throughout our life. No matter what kind of life we are leading, we have to strive for it. Do you agree that life is like a dream? Everything resumes normal when you wake up.

6B Wong Hui Ching

However, some people attempt to commit suicide when they face problems. I think they are stupid as death cannot solve their problems. On the other hand, it would cause even more hardship and suffering to those who are still alive. Those who commit suicide are selfish, aren't they? Actually, there is a solution for every problem. Therefore, death is never a way to deal with obstacles.

A journey through life is like a running race. Both of them have a start and an end. The race may include difficult times, like rough roads or steep hills. Yet, no matter how hard the race is, there is only one end. You can reach it unless you quit. Therefore, never give up and run for your goal!
